
Poor Girl

Posted by Reese - 2010/02/02 19:16

She looks like a mama mentality kinda dog. Please crosspost. HW positive.

Dear Fellow Rescuer Friends,

Meet Miss "Rosalie". She is in dire need of a loving home or foster, as she currently resides in a shelter Northern, FL.

Transport, as always, easily arranged.

Rosalie is a darling, stunningly beautiful, tries to crawl in your lap if she can! Though she is spayed, she is SO loving and motherly. Rosalie tried to nurse other puppies when a shelter technician was bottle-feeding the puppies. Rosie nuzzled them and cleaned them. (She reminds me of my own rescued Bulldog, except black, who was a bait dog long ago; same great disposition). Rosie is UTD on medical, but is HW positive. Most unfortunate, but easily treated. The slow kill method with Ivermectin is being used widely with many veterinarians advocating this method. I can assist anyone with that should Rosalie be so fortunate to come into your care.

Rosie is 2 years old; she was beaten badly; but due to the incredible work done by a loyal, dedicated, animal rescuer who works endlessly at the shelter, and whom I am proud to also call my friend —Rosie is now fine! Just a BIG LOVE BUG, but needs out desperately. Rosie is not doing well with kennel life.

Please disseminate widely to as many people as you can on your rescue list for me. I would be so, so grateful!

Anyone may contact me at my phone # below and email. Should you have any questions- please let me know!

THANK YOU IN ADVANCE!

JULES
